

UNIVERSITY OF BEDFORDSHIRE
DEPARTMENT OF COMPUTER SCIENCE AND TECHNOLOGY
FINAL YEAR UG PROJECT
WEEKLY PROGRESS REPORT FORM

Student's Name: Dipeshraj Shrestha		Supervisor's Name: Pawan KC	
Project Title: RentHub – A Digital Home Rent and Tenant Management Platform			
Week No: 1		Report No: 1	
Summary of progress (including any problems)		• Finalized system requirements and core architecture. • Set up the project structure and initial database foundation using PostgreSQL, PostGIS, and Kysely. • Designed the core database schema, implemented migrations, and integrated spatial search capabilities. • Kept version control updated regularly via Git. ✓ Problem: Identified minor configuration issues during initial schema design and query setup. ✓ Solution: Corrected the configurations, then thoroughly tested and verified the database foundation and distance search functionality.	
Plan for next week		• Continuing backend and API development. • Implement authentication and Role-Based Access Control (RBAC). • Connect backend services with the database. • Begin property search and location-based rental features.
